PRACTICAL TRAINING OF NATIVE ENGINEERS IN ENGLAND.

Read again—

Resolution in the Public Works Department, No. 1541—57G., dated 29th November 1882, on the subject of practical training of Native Engineers in England.

Read—

Despatch from the Secretary of State for India, to the Government of India, No. 13 P. W., dated 24th March 1887.

Despatch to Secretary of State, No. 63 P. W., dated 31st October 1887.

Despatch from Secretary of State, No. 69 P. W., dated 8th December 1887.

OBSERVATIONS.—The Resolution of 1882, now read again, indicated the procedure under which, as an experiment, not more than two Native Engineers annually were to be sent to England at the public expense for professional training.

2. Under these orders, ten young Engineers, being natives or domiciled Europeans, have been sent to England in the five years from 1883 to 1887 inclusive.

3. In March last, the Secretary of State called for a full report on the results that had been obtained from the experiment, and for a definite opinion of this Government as to their value.

4. A report was accordingly obtained from the several Local Governments concerned as to the value of the experience gained in England by the officers who, after having passed a period of training there, had returned to their work in this country.

Bombay.
Bengal.
Punjab.

5. The three Local Governments consulted were of opinion that the value of the training was not commensurate with the expense incurred.

6. The Government of India, on a perusal of the reports from the Local Governments and of the reports on the progress of the several officers while under training, forwarded from time to time by the Secretary of State, was of opinion that training in England is an undoubted advantage to those officers who have a real desire to profit by it; but that the expenses of it ought to be largely contributed to by the officers themselves.

7. Accordingly, it was recommended that the contribution made by the State should be limited to paying the officers, while absent from duty in India, two-thirds of their salary only, together with an allowance of Rs. 1,000 to assist in defraying the expense of the voyage to and from England. And it was proposed to continue to send annually to England not more than two carefully selected officers, who were willing to accept the modified terms.

8. The orders of the Secretary of State on these proposals have now been received. His Lordship accepts the modified financial conditions proposed by the Government of India; but, in view of the reports received as to the success of the experiment, is inclined only to consider cases of a very special character, which may arise from time to time, and which this Government may deem desirable to recommend in the public interest.

9. In view of these orders, it is now necessary to call for revised recommendations on behalf of young Engineers who fulfil the condition of being natives or domiciled Europeans. Such recommendations should be carefully made on behalf of those only who shew a *bonâ fide* desire to improve their professional knowledge, and must be strongly supported by their immediate superiors, on the ground that the officers possess the necessary qualifications for profiting by their deputation to England.

10. All previous recommendations will, under these orders, be considered as cancelled, and should not be repeated unless they can be now brought forward as cases to be specially considered under the new orders by the Government of India and by the Secretary of State.

The age of officers recommended should be limited for this year (1888) to 30 years, for next year to 28, and thereafter to 25 years.

ORDER.—Ordered that this Resolution be forwarded to the Local Govern-

LEAVE AND APPOINTMENTS.

*The 31st January, 1888.***No. 546.**

RESOLUTION—By the Government of India, Department of Finance and Commerce.

It has been brought to the notice of the Government of India that officers employed under Government sometimes obtain leave of absence, with the intention of taking up other employment under Government or otherwise, or accept such employment while on leave. Where this is done with the previous knowledge and consent of the officer's Departmental superior, the practice is not open to objection. There is reason however to believe that, in the absence of any specific directions, officers are apt to consider it unnecessary to obtain the consent of their immediate superior before accepting employment elsewhere; and as it seems advisable that this practice should be discontinued, the Governor General in Council has prescribed the following rules:—

- 1.—No Head of an Office should employ, either temporarily or permanently, an officer belonging to another establishment, without the previous consent of the officer on whose establishment he is at the time borne. In cases in which, for reasons which may appear satisfactory to the new employer, such consent cannot be obtained before the officer joins his new appointment, his employment may be made conditional on consent being obtained in due course.
- 2.—It shall be incumbent upon an officer employed under Government, whether on leave or not, before *accepting* other employment, either to resign his previous appointment, or to obtain the consent of his Departmental superior to his accepting such employment. If such consent is not obtained, either previously or, when this is not possible, in due course, the officer renders himself liable to be discharged from his previous appointment, and thus to lose the benefit of his previous service for pension.
2. There is nothing in these rules to prevent an officer on one establishment seeking employment on another. But an officer is not placed under any disability by resigning one appointment to take up another (Civil Pension Code, 101, 1); and it must be held to be a breach of discipline, if an officer actually transfers his services to a new employer without first obtaining the consent of his old employer, or definitely resigning his old employment.

ORDERED, that this Resolution be communicated to the several Local Governments, Administrations, and Heads of Departments for information and guidance.

Ordered also, that the Resolution be published in the *Gazette of India*.

The 2nd February, 1888.

SEPARATE REVENUE.

SALT.

The 11th February, 1888.

No. 769.—In exercise of the power conferred by the last paragraph of section 1 of the Indian Salt Act, 1882, the Governor General in Council is pleased to extend to the districts of the Orissa Division, on and from the eleventh day of February 1888, the whole of the said Act with the exception of the following portions, namely:—

- (1) the portions thereof specified in the second paragraph of section 1;
- (2) the words "an Assistant Commissioner of Northern India Salt Revenue, and also includes" in the second clause of section 3;
- (3) the words "any officer of the Northern India Salt Department, and also includes" in the third clause of section 3;
- (4) section 5; and
- (5) section 31.

2. Under the provisions of section 28 of the Act aforesaid the Governor General in Council is pleased to make a rule that any thing to be done under that Act by the Commissioner of Northern India Salt Revenue is to be done in the districts of the Orissa Division by the Commissioner of Salt and Abkari Revenue, Madras Presidency.

No. 771.—The following Rules made by the Governor General in Council in exercise of the powers conferred by the Indian Salt Act, 1882, are published under section 29 of the said Act:—

Preliminary.

1. These rules are applicable to the districts of the Orissa Division only.

Manufacture, Storage, and Sale of Salt under License.

2. No person who is not duly licensed in the manner hereinafter provided shall manufacture salt.

3. Any person wishing to manufacture salt shall apply for a license to the Assistant Commissioner of Salt Revenue in charge of the Division in which it is desired to carry on the manufacture, who may grant or withhold it as he shall see fit.

4. Each such license shall contain the name of the person to whom it is given; shall specify the limits within which such manufacture shall be carried on, and the places where the salt so manufactured shall be stored; shall expire on such date as may be stated therein; and shall be subject to the following conditions:—

i.—The provisions of the Act and of all Rules duly made under it shall be strictly observed by the licensee, his agents, and servants.

ii.—None but good salt, capable in the judgment of the Assistant Commissioner of bearing the duty fixed from time to time by the Governor General in Council under section 7 of the Act, shall be manufactured. The Salt Revenue Officer in charge of any Salt Store may refuse to permit the removal of any salt stored therein which he may consider not to be so capable, pending the decision of the Assistant Commissioner. All salt adjudged by the Assistant Commissioner to be inferior shall be destroyed in his presence, or in the presence of such officer as he may depute for the purpose, in such manner as he may direct.

iii.—On or before the first day of each month during which or any part of which—

(a) the manufacture of salt is in progress, or any salt remains unstored, in the licensee's Salt Works; or

(b) any salt manufactured by the licensee remains in store in any Salt Store, the licensee shall, if required, pay into such Government treasury or sub-treasury as the Assistant Commissioner shall appoint, such sum as the Assistant Commissioner shall prescribe on account of the cost of the guarding establishments maintained by Government at such Salt Works or Salt Store;

provided that, when the Salt Works of two or more licensees are so situated that they can be effectively supervised by a single establishment, or that when two or more licensees store their salt in a single Salt Store, one establishment only may be employed for the guarding of such Salt Works or Salt Store, as the case may be, and that the cost of it shall be recovered from the several licensees in such proportions as the Assistant Commissioner may direct.

Provided also that if, after the expiry of the license, it shall be found that the cost (the prescribed pensionary and leave allowance contributions included) of the Government guarding establishments actually employed at the Salt Works and Salt Store during the period of the currency of the license, or the licensee's proportion of such cost, as the case may be, has not exceeded five per centum of the revenue derived by Government during such period from the levy of duty on salt manufactured in the licensee's Salt Works and issued from the Salt Store for consumption on payment of duty, the whole amount of the monthly sums paid as aforesaid shall be refunded to the licensee; and that if such cost or proportion thereof has exceeded five per centum of such revenue, in that case five per centum of such revenue shall be returned.

iv.—No alteration shall be made in the pans, wells, or other plant of the Salt Work as existing at the date of the license without written sanction from the Salt Revenue Officer in charge of the Circle.

v.—Any wilful breach of the conditions of his license by the licensee, or by his servants with his connivance and privity, or by his heirs, administrators or assigns, shall entail forfeiture or suspension of the license at the discretion of the Assistant Commissioner in addition to any penalty which may by law be imposed for such breach.

vi.—All salt remaining in any Salt Work, the license to manufacture salt at which has been cancelled or suspended, shall be stored in the appointed place within fifteen days of the date of such cancellation or suspension; and all salt manufactured in any such Salt Work, which shall be in store at such date or shall subsequently be brought into store as hereinbefore provided, shall be removed on payment of duty within six months of such date. The Assistant Commissioner may cause any salt which may not be so stored after such period of fifteen days, or which may remain in store after the expiry of such period of six months, to be stored, or to be put up to auction, and sold if the price offered be equal to the excise duty leviable thereon, as the case may be. If the Assistant Commissioner shall cause such salt to be stored, the cost of such storage, including the expenses of transport, if any, shall be recovered from the licensee. If such salt be so sold, and if the price bid be less than the excise duty leviable thereon, the Assistant Commissioner may cause the salt to be destroyed in such manner as he shall think fit.

Such licenses shall also be subject to such further conditions as the Assistant Commissioner may from time to time prescribe for the protection of the Government revenue.

5. The licensee shall commence and close manufacture within such dates as may be prescribed by the Assistant Commissioner, and shall at the commencement of each manufacturing season, intimate in writing to the officer in charge of the Circle the number and extent of the pans which he intends to work in that season.

6. The licensee shall fence in the place of manufacture and the drying-grounds, and shall keep the fences in a proper state of repair to the satisfaction of the Assistant Commissioner, and shall refrain from injuring the same by entering or leaving the works by other than the authorised pathways. Permission will not be granted to commence manufacture in any year unless and until this condition is complied with.

7. All salt scraped shall be removed to the drying-ground before sunset of the same day. The officer in charge of the Works may order all salt not so removed to be destroyed in such manner as he shall deem fit.

8. Salt removed to the drying-ground shall be kept there only in such places as may be directed by the officer in charge of the Works.

9. Unless in the case of floods, or from other unavoidable necessity, salt shall be moved from the drying-grounds only to the Salt Store, and to the Salt Store only for the purpose of storage after permission to store has been obtained, at such times and in such quantities as may be ordered by the officer in charge of the Works.

10. In all cases in which he may consider it necessary for the protection of the revenue, the Assistant Commissioner may direct that no salt shall be moved from the drying-grounds to the Salt Store except in sealed bags, into each of which an equal weight or quantity of salt shall be placed, and under a written pass from the Salt Revenue Officer in charge of the Works. Such pass shall specify the name of the manufacturer, the number of his license, the route by which the salt is to be transported, the number of bags, and the date on which the pass is granted. A copy of every such pass shall be forwarded by the officer granting it to the Assistant Commissioner. All salt removed under such pass shall be weighed or estimated by measurement previous to such removal by the Salt Revenue establishments. The bags shall be sewn on the inside and sealed in such manner as the Assistant Commissioner may from time to time prescribe, and shall be conveyed direct and without unnecessary delay from the Works to the Salt Store by the route prescribed in the pass, which shall be delivered for record to the officer in charge of the Salt Store, without removal of the seals or undoing the fastenings or otherwise tampering with the bags or the abstraction of their contents. All expenses connected with the weighing and bagging of the salt and with the sealing of the bags shall be paid by the licensee.

11. If the whole or any portion of a consignment of salt despatched from the Works to the Salt Store be not delivered at the Salt Store within the time mentioned in the pass, or if any bag or bags comprised in any such consignment be found, on arrival at the Salt

Store and on inspection by the officer in charge thereof, to have been tampered with by removal of the seal or seals, or in any other manner, the licensee shall, on demand in writing, pay to the Assistant Commissioner enhanced duty on the said consignment, or on the portion thereof which has not been so delivered, or on the salt contained, at the time of their despatch from the Works, in the bag or bags so tampered with, as the case may be, at such rate as the Assistant Commissioner shall direct, not being more than double the rate for the time being imposed by rule under section 7(a) of the Act on salt manufactured in the Orissa Division; and shall also, if so required, forthwith remove from the Salt Store the said consignment or portion thereof, if subsequently received at the Salt Store, or the bag or bags so tampered with, as the case may be. Any such consignment or portion thereof, if subsequently received at the Salt Store, or bag or bags appearing to have been tampered with, may be detained by the officer in charge of the Salt Store pending the orders of the Assistant Commissioner. If the owner of any such consignment, &c., as aforesaid shall refuse to pay enhanced duty as aforesaid, or if he shall fail or neglect so to pay within seven days after the receipt of demand, the Assistant Commissioner may sell the whole or any part of such consignment, if subsequently received at the Salt Store, in such manner and at such time and place as he may think fit, and may credit the proceeds to Government. Before a demand for enhanced duty is made on a licensee under this rule, the Assistant Commissioner must be satisfied that an offence under section 9 of the Act has been committed, and, where the salt exceeds five sers in weight, he must make the report required by section 13.

Provided always that no such demand for the payment of enhanced duty as aforesaid shall be made if the owner of any such consignment as aforesaid shall satisfy the Assistant Commissioner or his official superior that the failure to deliver the said consignment or any part thereof at the Salt Store within the time specified in the pass, or that the removal of the seal or seals from a bag or bags, or other appearance of tampering with a bag or bags, was due to stress of weather or to accidents occurring to the boats or vehicles used in the transport of such consignment, or to other unavoidable cause beyond his power of control.

12. If the officer in charge of the Salt Store be satisfied that salt delivered to him has been transported according to rule and to the conditions of the pass, if the salt has been removed from the Salt Works under pass, he shall permit the licensee to store the salt.

13. The salt shall be stored in such places and in such manner as the Assistant Commissioner may from time to time authorize and direct by the servants and at the expense of the licensee.

14. All salt shall be stored within forty-five days of the date on which it was made, and within thirty days of the date fixed for the closing of manufacture.

15. The Assistant Commissioner may extend the above periods of forty-five days and thirty days respectively in case storage should be unavoidably delayed by rain or by any other sufficient cause.

16. If a licensee shall fail to store his salt within the periods above prescribed, the officer in charge of the Circle shall take such steps as he may consider necessary for its storage; and the cost of such storage shall be recovered from the licensee.

17. No salt so stored shall be permitted to be removed from the Store on sale and payment of duty until the cost of such storage has been paid by, or has been recovered from, such licensee.

18. The officer in charge of the Circle may refuse to allow the storage of salt which he considers to be insufficiently dried for storage.

19. All salt shall be weighed into store under the supervision and directions of a Salt Revenue Officer of such rank as the Assistant Commissioner shall appoint. The buildings in which storage is made shall be previously approved by the Assistant Commissioner, and shall be divided into compartments in such manner as he shall direct. In each such compartment, so long as so much salt shall be available for storage, an equal weight of salt, not being less than five hundred maunds, shall be stored. No additional storage will be allowed in any compartment from the salt contained in which any removals may have been made, except after the re-weighment of the remainder of the salt and before the resumption of removals from such remainder.

20. The licensee shall keep in a proper state of repair, to the satisfaction of the Assistant Commissioner, all buildings used for the storage of his salt. If he shall fail to begin any repairs which the Assistant Commissioner may order him to make within ten days of the receipt of a written notice from the Assistant Commissioner directing him to make such repairs, or shall fail to complete any such repairs within the time specified in such notice, the Assistant Commissioner may proceed to have such repairs executed, and may recover the cost thereof from the licensee.

21. The licensee shall provide and maintain suitable and secure fastenings to the buildings in which the salt is stored, to the satisfaction of the Assistant Commissioner, for the attachment of locks to be provided by Government. The keys of all such locks will be retained by the officer in charge of the Salt Store, but the licensee will be at liberty to affix his own locks also, provided that he shall always, on the requisition of the Assistant Commissioner or of the officer in charge of the Circle or of the Salt Store, immediately remove his locks.

22. The Assistant Commissioner may, at his discretion, call on the licensee to store any sifted or refuse salt manufactured by him which may be lying unstored within the limits of the Salt Works, or, at the option of the licensee, to destroy the same. If the licensee shall fail either to store or to destroy such salt within ten days of the receipt of the order so to do, the Assistant Commissioner may cause such salt to be destroyed, and may recover the cost of such destruction from the licensee; and the Assistant Commissioner shall have authority to determine finally, and without appeal, whether any salt is sifted or refuse for the purposes of this rule.

23. Unless in the case of floods, or from other unavoidable necessity, no salt shall be removed from any Salt Store except for consumption on payment of duty under a permit.

24. Persons wishing to remove salt from a Salt Store for consumption on payment of duty, shall first pay the charges due thereon into such Government treasury or sub-treasury as may from time to time be appointed, and shall receive in return a receipt.

Fractions of quarter maunds shall be paid for as quarter maunds.

25. The receipt shall be presented with a written requisition to the Salt Revenue Officer in charge of the Salt Store, who will grant in lieu a permit for the removal of the salt, and will depute a subordinate officer to supervise its weighment and issue to the holder of the permit. If, however, the officer in charge of the Salt Store suspect the genuineness of the receipt or other fraud, he may refuse to issue the permit except under security equivalent to the full value of the salt covered by such receipt, together with the duty leviable thereon, and shall refer the case for the orders of his superior.

26. No permit will be granted for the removal of less than twenty-four maunds of salt at one time, except to complete the clearance of a compartment, or as a sample, for which latter purpose one maund of salt may be removed from each compartment on not more than three occasions.

27. Salt will only be issued on such days and at such times as the Assistant Commissioner may appoint for each Salt Store. All salt shall be removed on the day on which it is weighed out, and shall, for this purpose, be placed in bags, to be provided by the holder of the permit to the satisfaction of the officer in charge of the Salt Store, into each of which the same weight of salt shall be placed. When the weighment and bagging of the salt is completed, the bags will be retained, until check-weighed by an Inspector or Assistant Inspector, who will countersign the permit, and allow the removal of the salt.

28. If on check-weighment of any consignment of salt by an Inspector or Assistant Inspector as aforesaid it is found to exceed the quantity entered in the permit, the following practice shall be observed by the Inspector or Assistant Inspector:—

(a) If the excess is not more than one per cent., he shall allow the consignment to pass unquestioned.

(b) If the excess exceeds one per cent., he shall—

(1) if the officer in charge of the Circle, and if satisfied on inquiry that an offence punishable under section 9 of the Act has been committed, either detain the whole consignment and make complaint to a Magistrate and institute proceedings with a view to the confiscation of such salt, or release the consignment on payment of such penalty under section 13 of the Act as he may think proper, provided that no salt shall be released on payment of a penalty if the excess shall exceed 3 per cent., except under the orders of the Assistant Commissioner; or

(2) if subordinate to the officer in charge of the Circle, detain the whole consignment and report the matter without delay for the orders of the officer in charge of the Circle, who shall dispose of it in the manner last hereinbefore provided.

29. All salt shall be weighed, both when stored and also when removed on payment of duty, with the scales provided by Government for the purpose, in such manner as the Assistant Commissioner may from time to time direct.

30. No storage or removals of salt will be allowed on Sundays or authorized holidays, or on days on which, in the opinion of the officer in charge of the Store, the state of the weather is such as to render storage or removals undesirable.

31. Licensees shall furnish the labour for conveying the machines and weights to be used in the storage and removal of salt from the place where they may be to the place where they may be required to be used for storage and removals. The licensee for the storage or removal of whose salt any machines or weights are last used on any day shall supply the labour for replacing the same in the place where they are usually kept, and for cleaning the same to the satisfaction of the officer in charge.

32. Licensees shall be responsible for all damage, other than fair wear and tear, done to machines or weights in the storage or removal of their salt.

33. Nothing in these rules shall apply to the manufacture of salt by or on behalf of Government.

34. The Assistant Commissioner may prescribe all forms necessary for the administration of the Act.

Protected area, and the possession, transport, and sale of salt therein.

35. The area defined for the purpose of section 6, clause (c), round the Salt Works of Orissa shall extend to a distance of two miles from the boundary of each *panga* Salt Work on all sides. Such areas are termed "protected areas."

36. No person shall possess or transport more than one ser of salt within a protected area, unless it be—

- (i) protected by a *rawānah*;
- (ii) within the boundaries of a Salt Work;
- (iii) in transit from a Salt Work to a Salt Store;
- (iv) in the possession of an officer of Government;
- (v) in the possession of a person licensed under Rule 44.

37. *Rawānahs* for the transport of salt within protected areas will be issued by the officer in charge of the Salt Store from which the salt is removed, or by such officers as the Assistant Commissioner may appoint for the purpose.

38. Rawánahs shall be current and valid for such periods as the officer issuing them may fix as reasonable and sufficient to allow of the salt reaching its destination or passing beyond the limits of the protected area or areas concerned, as the case may be. The date on which the currency of a rawánah terminates shall be specified therein.

39. An officer issuing a rawánah may specify therein the route by which the salt shall be removed, and such rawánah shall not be valid except along the route so specified. He may also specify the hour at which the currency of a rawánah shall terminate.

40. Every rawánah shall be returned to the Inspector of the Circle in which it was issued, either by hand or by means of a registered letter within seven days of the termination of the period for which it was current.

41. Rawánahs shall always accompany the salt to which they refer, and shall be produced on demand for the inspection of any officer of the Salt or Police Department. Such officer shall be at liberty to endorse such remarks thereon as he may think fit.

42. Any officer of the Salt or Police Department may detain any consignment of salt covered by a rawánah within a protected area for the purpose of weighing the same. Such weighment shall be made by such officer as the Inspector of the Circle may generally or specially appoint for the purpose.

43. If on weighment of salt so detained it is found to exceed the quantity entered in the rawánah, the weighing officer shall proceed as prescribed in Rule 28.

44. The Assistant Commissioner may issue licenses for the possession and retail sale of salt within any protected area, subject to such conditions as he may from time to time prescribe. Such license shall only cover the possession and sale of salt within the licensee's shop, the position of which shall be clearly defined therein.

45. Every person retailing salt under such a license shall keep a register of sales written up daily, and such other accounts as the Assistant Commissioner may prescribe, and shall permit any officer of the Salt Department, of not lower grade than a Sub-Inspector, to examine such accounts on demand, and to weigh the salt in store on his premises.

46. On the arrival of a consignment of salt at the shop of any licensed vendor, he shall within twenty-four hours notify its receipt in writing to the Inspector of the Circle, specifying in such notice the number and date of the rawánah, the quantity and description of the salt covered thereby, and the store from which it was obtained.

47. Every person licensed to sell salt within a protected area under Rule 44 shall, on the first day of each month, submit to the Inspector of the Circle within which his shop is situated a statement signed by him specifying the quantity of salt received and sold by him in the previous month. Such statement shall be in such form and shall contain such particulars as the Assistant Commissioner may from time to time prescribe.

48. Clause V of Rule 4 shall apply to licenses for the retail sale of salt within protected areas.

Disposal of persons arrested.

49. Salt Revenue Officers who may make arrests shall, unless empowered under the ante-penultimate paragraph of section 20, at once send the persons arrested, with any independent witnesses whose attendance they may be able to secure, to the nearest police station, at the same time making a full report of the circumstances under which the arrest was made through the Inspector of the Circle, to the Assistant Commissioner.

Seizure, disposal, or destruction of things liable to be seized or destroyed under the Act.

50. All property seized by Salt Revenue Officers as liable to confiscation under the Act shall be sent for safe custody to the officer in charge of the Circle, or to the nearest Salt Store or police station, as most convenient.

51. When property is sent to a police station, it shall be accompanied by a written request to receive and retain it.

52. When illicitly manufactured salt is thus handed over to the police, the senior police officer present at the station shall, in the presence of the witnesses to the seizure and of the accused person, if present, after weighing and recording the weight of each, take from each distinct kind or quality of salt seized (if there be more than one such kind or quality) three samples of not less than 5 tolahs each, which he shall seal with the official seal of the police station, and, after numbering them, deliver two of them to the officer who made the seizure, recording at the same time, on the printed form of request to receive the property which will be presented to him, a note specifying the total weight of each kind seized, according to the weighments made before him, and the corresponding numbers of the samples. The remainder of the salt and the third sample shall be sealed up with the seals of the officer who made the seizure and of the police station, and shall remain in a secure place in such station till such time as a written order shall be sent by the officer in charge of the Circle either for the destruction of the articles seized, which shall be carried into effect by the officer presenting such request in the presence of some officer of the police station, and the same certified on the reverse of the order, or for the delivery of the same, or part thereof, as the case may be, to the bearer of the order for production in Court.

53. When salt is delivered at a Salt Store for safe custody, the officer in charge thereof shall adopt the same course with respect thereto as is in Rule 52 prescribed for adoption by the police.

54. When a seizure is made by an officer in charge of a Circle in person, or when salt is delivered to any such officer under Rule 50, he may either follow the foregoing procedure, deputing one of his subordinates present at the seizure to take the salt to the police station and receive the samples, or he may himself on the spot take out and seal up the samples and the rest of the seized salt with his own seal. He may then either take the salt seized with him to deposit where he considers it will be safest, or send it for deposit to the nearest or

most accessible Salt Store or police station, to be kept, as in the previous case, until further orders. If, however, an officer in charge of a Circle himself seals the salt, he must, in the event of the identity of the salt produced in Court being denied by the accused, be prepared to attend and prove the same in person.

55. When any property other than illicitly manufactured salt is sent for safe custody to an officer in charge of a Circle, or to a Salt Store, or to a police station, such officer, or the officer in charge of the Salt Store or police station, as the case may be, shall make such arrangements as he shall think fit, and as shall be suitable, according to the nature of the case, for the safe custody of such property, pending the orders of a Magistrate, or of the officer in charge of the Circle, or of the Assistant Commissioner, or of the Commissioner of the Division as the case may be.

56. When anything is seized and detained under the Act or the rules made under the Act, it shall not be released until all duty, penalties, and charges due on account thereof have been paid by the owner to the officer who is in possession of such thing.

If the thing is reported for confiscation, it shall not be released unless orders for the release are received from competent authority.

57. If the property so seized and detained shall be an animal, the owner shall provide for its due care and keep, in default of which the animal may be sold to defray charges.

58. If orders are received from competent authority for the release of anything seized and detained, and no duty or penalty is payable in respect of such thing, it shall at once be given up to the owner or his agent on his paying all charges incurred.

59. Should no one be present to receive the thing released the officer in charge thereof shall do his best to give notice to the owner of the order of the release, and shall cause a similar notice to be affixed on the office premises, at the Assistant Commissioner's office, and at the police station nearest to the owner's residence.

If within two calendar months from the date of the notice no person, entitled to receive the thing, claim it and pay all charges incurred, it shall be sold and the proceeds placed in deposit. After a further period of three calendar months, the money shall be credited to the Government.

60. If any duty is leviable or penalty is imposed by competent authority in respect of the thing seized, unless such duty or penalty, together with all charges incurred, be paid within seven days of the receipt of the orders of competent authority for release subject to such payment, the thing shall be sold, and from the proceeds the duty, penalty, and charges shall be deducted, and the balance made over to the owner or his agent.

Should no one be present to receive the money, notice, as under Rule 59, shall be given, the money being kept in deposit for three calendar months.

If not claimed within the period, it shall be credited to the Government.

61. When orders are received from competent authority for the confiscation of anything seized and detained, it shall, with all convenient despatch, be sold or destroyed as the Assistant Commissioner of Salt Revenue may direct.

62. When a Magistrate orders the confiscation of works, materials or implements under section 9 of the Act, they shall be sold or destroyed by dismantling or otherwise under the orders of the Assistant Commissioner of Salt Revenue.

General.

63. All Salt Revenue Officers and all gazetted officers of other departments shall at all time have free passage over all works for the manufacture of salt at which a license has been granted under these rules.

64. The Assistant Commissioner may establish such guard stations at and around Salt Works and Salt Stores as he shall think necessary for the safety of the revenue, and may require that all salt removed from Salt Works for transport to a Salt Store, or from a Salt Store for consumption on payment of duty, shall be taken direct to such guard station as he shall prescribe for examination and comparison with the quantity and other particulars entered in the pass or permit. The Salt Revenue Officer in charge of any such guard station may detain any such consignment of salt which he may find not to correspond with the entries in the pass or permit, pending the orders of the officer in charge of the Circle.

65. Under such general rules as the Assistant Commissioner shall prescribe, all Salt Revenue Officers, not below the rank of Assistant Inspector, shall be at liberty to examine and weigh the salt in store in any Salt Store at any time.

66. The licensee and his servants shall have access to the places where salt is manufactured and stored only during such hours as the Assistant Commissioner may fix for the purpose.

Appeals.

67. Subject to the provisions of these Rules, any person dissatisfied with an order passed by a Salt Revenue Officer may appeal to the immediate superior of such officer. All such appeals shall be accompanied by authenticated copies of the orders appealed against, and shall be forwarded through the officer whose orders are appealed against. For the purposes of this rule, the immediate superior of an Assistant Commissioner, who is an Assistant Commissioner of the Madras Salt Department, shall be the Deputy Commissioner of Salt and Abkari Revenue of the Northern Division, Madras Presidency, and the immediate superior of an Assistant Commissioner, who is a Deputy Commissioner of the Madras Salt Department, shall be the Commissioner of Salt and Abkari Revenue, Madras Presidency. An order passed on an appeal by the Commissioner of Salt and Abkari Revenue, Madras Presidency, shall be final.

The 16th February, 1888.

No. 300.—In accordance with the provisions of section 37, sub-section (1), of the Births, Deaths, and Marriages Registration Act, No. VI of 1886, the Governor-General in Council is pleased to publish, for general information, the following draft

rules which His Excellency in Council proposes to make under sections 26, 28, and 36 of the Act.

The draft will be taken into consideration on the expiration of two months from the date of this Notification :—

In exercise of the powers conferred by sections 26, 28 and 36 of the Births, Deaths and Marriages Registration Act, 1886, the Governor-General in Council is pleased to make the following rules :—

1. In these rules, unless there is something repugnant in the subject or context,—

- (1) "the Act" means the Births, Deaths and Marriages Registration Act, 1886 :
- (2) "schedule" means a schedule to these rules :
- (3) "Registrar-General" and "Registrar" mean, respectively, a Registrar-General of Births, Deaths and Marriages and a Registrar of Births and Deaths appointed under the Act : and
- (4) "sign", used with reference to a person who is unable to write his name, includes mark.

2. Notices of births and deaths shall be in the forms set forth in Schedule A and Schedule B, respectively.

3. Every such notice shall be signed by the person giving it, and shall specify the capacity in which the person claims to be authorized to give it.

4. Every such notice shall ordinarily be presented to the Registrar for the local area in which the birth or death occurred within three months of the date of the birth or death to which it refers, as the case may be :

Provided that the Registrar may, of his own authority, for any reason which he considers sufficient, accept notice of a birth or death at any time within six months from the date of its occurrence, and with the special sanction in writing of the Registrar-General, after that time.

5. An appeal against an order of a Registrar refusing to register a birth or death on any other ground than that referred to in proviso (a) to section 19 of the Act shall lie to the Registrar-General, who may, in his discretion, either confirm the order of the Registrar or direct him to register the birth or death.

6. Registers of births and deaths shall be kept in the forms set forth in Schedule C and Schedule D, respectively.

7. When a birth or death has occurred during a journey,

or when the person giving notice of a birth or death was compelled by duty, or urgent necessity, or unavoidable accident, to leave the local area in which such birth or death occurred, so soon after its occurrence that he was unable to give the prescribed notice to the Registrar for that local area,

any Registrar may receive notice of such birth or death, and register the same as if it were a birth or death which had occurred within the local area for which he has been appointed.

8. The provisions of rule 4, as to the time within which notice of a birth or death must be given, shall apply to every notice of a birth or death given under the circumstances described in the last foregoing rule.

9. In every case of a birth or death admitted to registration under rule 7, the Registrar to whom the notice of the birth or death is given shall record in his register the reason why the notice was not given to the Registrar of the local area within which the birth or death occurred, and shall, within one week from the date of the registration of the birth or death, forward to the Registrar-General, and to the Registrar of the local area within which the birth or death occurred, a copy of the entry in the register relating to the birth or death.

Every Registrar shall paste into a book kept by him for the purpose all copies of entries received by him under this rule, and the book containing the copies shall be, at all reasonable times, open to inspection by any person desiring to inspect it.

10. The Registrar for any local area including a port may register any birth or death which has occurred on the high seas on board any ship arriving at such port :

Provided that notice of the birth or death is given to such Registrar within sixty days after the arrival of the ship.

In the notice of such birth or death, and in the entry thereof in the register, there shall be specified, in lieu of the name of the place at which, the name of the ship on which, the event occurred, and the name of the Commander of the ship and the approximate latitude and longitude of the ship's position at the time of the birth or death.

11. Every certificate of registration of a birth or death given by a Registrar under section 23 of the Act shall be in the form set forth in Schedule E.

12. At the foot of every copy of an entry given under section 9 or section 25 of the Act there shall be written a certificate, dated and subscribed by the Registrar-General or officer authorized under section 9, or by the Registrar, as the case may be, that the copy is a true copy of the entry.

13. Every Registrar shall keep, in the form set forth in Schedule F, a register of all certificates of registration and copies of entries given by him.

Every Registrar-General shall keep a register in a similar form of all copies given by him of entries in the certified copies of the registers sent to his office.

Should no entries be made in a register during the preceding three months, a certificate to this effect shall be sent to the Registrar-General.

15. The indexes which are required by section 7 of the Act to be made of the certified copies of registers of births, deaths and marriages sent to the office of the Registrar-General shall be in the forms set forth in Schedule H, Schedule I and Schedule J, respectively.

Every entry in an index shall be made alphabetically with reference to the initial letter of the name of the person indicated by the entry.

In the index of certified copies of entries of marriages, the names of both the husband and the wife must be indexed.

In the case of a person of European descent the initial letter will be the first letter of the surname, and in the case of any other person, the first letter of his name, and not that of his rank, title or class.

16. A Registrar may, of his own motion, correct, in manner prescribed in section 28 of the Act, any error in form made in an entry of a birth or death in a register of births or register of deaths kept by him under the Act.

In every case in which an entry is corrected under this rule, intimation thereof shall (if practicable) be communicated, within one week from the date of the correction being made, to the person who gave the notice of the birth or death.

17. When an error in substance in any entry of a birth or death in a register of

births or register of deaths is asserted to have been made, the Registrar may correct the error, in manner prescribed in section 28 of the Act, on application made in writing, and signed in the presence of two witnesses attesting the signature, by any person authorised under section 20 or 21, as the case may be, to give notice of the birth or death to which the entry relates :

Provided that the Registrar is satisfied that the application is well-founded.

An appeal against an order of a Registrar under this rule refusing to correct an asserted error in an entry in a register shall lie to the Registrar-General, who may, in his discretion, either confirm the order of the Registrar or direct him to correct the error.

18. Without the special sanction in writing of the Registrar-General, an application for the correction of an entry in a register of births or register of deaths shall not be entertained after the expiration of one year from the date on which the notice of the birth or death was given.

19. The sums specified in Schedule K shall be the fees payable under the sections of the Act there referred to :

Provided that soldiers and non-commissioned officers of Her Majesty's Regular Forces and all seamen shall be exempted from the payment of any fees.

20. Every Registrar-General and Registrar shall keep a register, in the form set forth in Schedule L, of all fees realised under these rules, and shall forward the fees at the end of each month to the nearest treasury to be credited to Government. PRESENT.

The QUEEN'S Most Excellent Majesty.

Lord Stanley of Preston.

Secretary Sir Henry Holland, Bart.

Whereas the Convention of which an English translation is set out in the First Schedule to this Order has been concluded between Her Majesty the Queen of the United Kingdom of Great Britain and Ireland and the foreign countries named in this Order, with respect to the protection to be given by way of copyright to the authors of literary and artistic works :

Belgium ; France ; Germany ; Hayti ; Italy ; Spain ; Switzerland ; Tunis.

And whereas Her Majesty in Council is satisfied that the foreign countries named in this Order have made such provisions as it appears to Her Majesty expedient to require for the protection of authors of works first produced in Her Majesty's dominions :

Now, therefore, Her Majesty, by and with the advice of Her Privy Council, and by virtue of the authority committed to Her by the International Copyright Acts, 1844 to 1886, doth order ; and it is hereby ordered, as follows :

1. The Convention as set forth in the First Schedule to this Order, shall, as from the commencement of this Order, have full effect throughout Her Majesty's Dominions, and all persons are enjoined to observe the same.

2. This Order shall extend to the foreign countries following, that is to say :

Belgium ; France ; Germany ; Hayti ; Italy ; Spain ; Switzerland ; Tunis ; and the above countries are in this Order referred to as the foreign countries of the Copyright Union, and those foreign countries together with Her Majesty's dominions, are in this Order referred to as the countries of the Copyright Union.

3. The author of a literary or artistic work which, on or after the commencement of this Order is first produced in one of the foreign countries of the Copyright Union shall, subject as in this Order and in the International Copyright Acts, 1844 to 1886, mentioned, have as respects that work throughout Her Majesty's dominions, the same right of copyright, including any right capable of being conferred by an Order in Council under section two or section five of the International Copyright Act, 1844, or under any other enactment, as if the work had been first produced in the United Kingdom, and shall have such right during the same period ;

Provided that the author of a literary or artistic work shall not have any greater right or longer term of copyright therein, than that which he enjoys in the country in which the work is first produced.

The author of any literary or artistic work first produced before the commencement of this Order shall have the rights and remedies to which he is entitled under section six of the International Copyright Act, 1886.

4. The rights conferred by the International Copyright Acts, 1844 to 1886, shall, in the case of a literary or artistic work first produced in one of the foreign countries of the Copyright Union by an author who is not a subject or citizen of any of the said foreign countries, be limited as follows, that is to say, the author shall not be entitled to take legal proceedings in Her Majesty's dominions for protecting any copyright in such work, but the publisher of such work shall, for the purpose of any legal proceedings in Her Majesty's dominions for protecting any copyright in such work, be deemed to be entitled to such copyright as if he were the author, but without prejudice to the rights of such author and publisher as between themselves.

5. A literary or artistic work first produced simultaneously in two or more countries of the Copyright Union shall be deemed for the purpose of copyright to have been first produced in that one of those countries in which the term of copyright in the work is shortest.

And the Lords Commissioners of Her Majesty's Treasury are to give the necessary orders herein accordingly.

C. L. PEEL.

FIRST SCHEDULE.

Copyright Convention.

Convention for protecting effectively and in as uniform a manner as possible, the rights of authors over their literary and artistic works. Made on the fifth day of September, one thousand eight hundred and eighty-seven, between Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India; His Majesty the German Emperor, King of Prussia; His Majesty the King of the Belgians; Her Majesty the Queen Regent of Spain, in the name of His Catholic Majesty the King of Spain; the President of the French Republic; the President of the Republic of Haïti; His Majesty the King of Italy; the Federal Council of the Swiss Confederation; His Highness the Bey of Tunis.

[The following is an English Translation of the Convention, with the omission of the formal beginning and end.]

ARTICLE I.

The Contracting States are constituted into an Union for the protection of the rights of authors over their literary and artistic works.

ARTICLE II.

Authors of any of the countries of the Union, or their lawful representatives, shall enjoy in the other countries for their works, whether published in one of those countries or unpublished, the rights which the respective laws do now or may hereafter grant to natives.

The enjoyment of these rights is subject to the accomplishment of the conditions and formalities prescribed by law in the country of origin of the work, and cannot exceed in the other countries the term of protection granted in the said country of origin.

The country of origin of the work is that in which the work is first published, or if such publication takes place simultaneously in several countries of the Union, that one of them in which the shortest term of protection is granted by law.

For unpublished works the country to which the author belongs is considered the country of origin of the work.

ARTICLE III.

The stipulations of the present Convention apply equally to the publishers of literary and artistic works published in one of the countries of the Union, but of which the authors belong to a country which is not a party to the Union.

ARTICLE IV.

The expression "literary and artistic works" comprehends books, pamphlets, and all other writings; dramatic or dramatico-musical works, musical compositions with or without words; works of design, painting, sculpture, and engraving; lithographs, illustrations, geographical charts, plans, sketches, and plastic works relative to geography, topography, architecture, or science in general; in fact, every production whatsoever in the literary, scientific, or artistic domain which can be published by any mode of impression or reproduction.

ARTICLE V.

Authors of any of the countries of the Union, or their lawful representatives, shall enjoy in the other countries the exclusive right of making or authorising the translation of their works until the expiration of ten years from the publication of the original work in one of the countries of the Union.

For works published in incomplete parts ("livraisons") the period of ten years commences from the date of publication of the last part of the original work.

For works composed of several volumes published at intervals, as well as for bulletins or collections ("cahiers") published by literary or scientific societies, or by private persons, each volume, bulletin, or collection is, with regard to the period of ten years, considered as a separate work.

In the cases provided for by the present Article and for the calculation of the period of the protection, the 31st December of the year in which the work was published is admitted as the date of publication.

ARTICLE VI.

Authorised translations are protected as original works. They consequently enjoy the protection stipulated in Articles II and III as regards their unauthorised reproduction in the countries of the Union.

It is understood that, in the case of a work for which the translating right has fallen into the public domain, the translator cannot oppose the translation of the same work by other writers.

ARTICLE VII.

Articles from newspapers or periodicals published in any of the countries of the Union may be reproduced in original or in translation in the other countries of the Union, unless the authors or publishers have expressly forbidden it. For periodicals it is sufficient if the prohibition is made in a general manner at the beginning of each number of the periodical.

This prohibition cannot in any case apply to articles of political discussion, or to the reproduction of news of the day or current topics.

ARTICLE VIII.

As regards the liberty of extracting portions from literary or artistic works for use in publications destined for educational or scientific purposes, or for chrestomathies, the matter is to be decided by the legislation of the different countries of the Union, or by special arrangements existing or to be concluded between them.

ARTICLE IX.

The stipulations of Article II apply to the public representation of dramatic or dramatico-musical works, whether such works be published or not.

Authors of dramatic or dramatico-musical works, or their lawful representatives, are, during the existence of their exclusive right of translation, equally protected against the unauthorized public representation of translations of their works.

The stipulations of Article II apply equally to the public performance of unpublished musical works or of published works in which the author has expressly declared on the title page or commencement of the work that he forbids the public performance.

ARTICLE X.

Unauthorized indirect appropriations of a literary or artistic work, of various kinds, such as *adaptations, arrangements of music, &c.*, are specially included amongst the illicit reproductions to which the present Convention applies, when they are only the reproduction of a particular work, in the same form, or in another form, with non-essential alterations, additions, or abridgments, so made as not to confer the character of a new original work.

It is agreed that, in the application of the present Article, the tribunals of the various countries of the Union will, if there is occasion, conform themselves to the provisions of their respective laws.

ARTICLE XI.

In order that the authors of works protected by the present Convention shall, in the absence of proof to the contrary, be considered as such, and be consequently admitted to institute proceedings against pirates before the courts of the various countries of the Union, it will be sufficient that their name be indicated on the work in the accustomed manner.

For anonymous or pseudonymous works, the publisher whose name is indicated on the work is entitled to protect the rights belonging to the author. He is, without other proof, reputed the lawful representative of the anonymous or pseudonymous author.

It is, nevertheless, agreed that the tribunals may, if necessary, require the production of a certificate from the competent authority to the effect that the formalities prescribed by law in the country of origin have been accomplished, as contemplated in Article II.

ARTICLE XII.

Pirated works may be seized on importation into those countries of the Union where the original work enjoys legal protection.

The seizure shall take place conformably to the domestic law of each State.

ARTICLE XIII.

It is understood that the provisions of the present Convention cannot in any way derogate from the right belonging to the Government of each country of the Union to permit, to control, or to prohibit, by measures of domestic legislation or police, the circulation, representation, or exhibition of any works or productions in regard to which the competent authority may find it necessary to exercise that right.

ARTICLE XIV.

Under the reserves and conditions to be determined by common agreement,* the present Convention applies to all works which at the moment of its coming into force have not yet fallen into the public domain in the country of origin.

ARTICLE XV.

It is understood that the Governments of the countries of the Union reserve to themselves respectively the right to enter into separate and particular arrangements between each other, provided always that such arrangements confer upon authors or their lawful representatives more extended rights than those granted by the Union, or embody other stipulations not contrary to the present Convention.

ARTICLE XVI.

An international office is established, under the name of the "Office of the International Union for the Protection of Literary and Artistic Works."

This office, of which the expenses will be borne by the Administrations of all the countries of the Union, is placed under the high authority of the Superior Administration of the Swiss Confederation, and works under its direction. The functions of this office are determined by common accord between the countries of the Union.

ARTICLE XVII.

The present Convention may be submitted to revisions in order to introduce therein amendments calculated to perfect the system of the Union.

Questions of this kind, as well as those which are of interest to the Union in other respects, will be considered in Conferences to be held successively in the countries of the Union by delegates of the said countries.

It is understood that no alteration in the present Convention shall be binding on the Union except by the unanimous consent of the countries composing it.

ARTICLE XVIII.

Countries which have not become parties to the present Convention, and which grant by their domestic law the protection of rights secured by this Convention, shall be admitted to accede thereto on request to that effect.

Such accession shall be notified in writing to the Government of the Swiss Confederation, who will communicate it to all the other countries of the Union.

Such accession shall imply full adhesion to all the clauses and admission to all the advantages provided by the present Convention.

ARTICLE XIX.

Countries acceding to the present Convention shall also have the right to accede thereto at any time for their Colonies or foreign possessions.

They may do this either by a general declaration comprehending all their Colonies or possessions within the accession, or by specially naming those comprised therein, or by simply indicating those which are excluded.

* See paragraph 4 of Final Protocol.

ARTICLE XX.

The present Convention shall be put in force three months after the exchange of the ratifications, and shall remain in effect for an indefinite period until the termination of a year from the day on which it may have been denounced.

Such denunciation shall be made to the Government authorised to receive accessions, and shall only be effective as regards the country making it, the Convention remaining in full force and effect for the other countries of the Union.

ARTICLE XXI.

The present Convention shall be ratified, and the ratifications exchanged at Berne, within the space of one year at the latest.

Additional Article.

The Convention concluded this day in no wise affects the maintenance of existing Conventions between the Contracting States, provided always that such Conventions confer on authors, or their lawful representatives, rights more extended than those secured by the Union, or contain other stipulations which are not contrary to the said Convention.

Final Protocol.

1. As regards Article IV it is agreed that those countries of the Union where the character of artistic works is not refused to photographs, engage to admit them to the benefits of the Convention concluded to-day, from the date of its coming into effect. They are, however, not bound to protect the authors of such works further than is permitted by their own legislation except in the case of international engagements already existing, or which may hereafter be entered into by them.

It is understood that an authorized photograph of a protected work of art shall enjoy legal protection in all the countries of the Union, as contemplated by the said Convention for the same period as the principal right of reproduction of the work itself subsists, and within the limits of private arrangements between those who have legal rights.

2. As regards Article IX it is agreed that those countries of the Union whose legislation implicitly includes choregraphic works amongst dramatico-musical works expressly admit the former works to the benefits of the Convention concluded this day.

It is, however, understood that questions which may arise on the application of this clause shall rest within the competence of the respective tribunals to decide.

3. It is understood that the manufacture and sale of instruments for the mechanical reproduction of musical airs which are copyright, shall not be considered as constituting an infringement of musical copyright.

4. The common agreement alluded to in Article XIV of the Convention is established as follows:—

The application of the Convention to works which have not fallen into the public domain at the time when it comes into force, shall operate according to the stipulations on this head which may be contained in special Conventions either existing or to be concluded.

In the absence of such stipulations between any countries of the Union, the respective countries shall regulate, each for itself, by its domestic legislation, the manner in which the principle contained in Article XIV is to be applied.

5. The organization of the International Office established in virtue of Article XVI of the Convention, shall be fixed by a regulation which shall be drawn up by the Government of the Swiss Confederation.

The official language of the International Office will be French.

The International Office will collect all kinds of information relative to the protection of the rights of authors over their literary and artistic works. It will arrange and publish such information. It will study questions of general utility likely to be of interest to the Union, and, by the aid of documents placed at its disposal by the different Administrations, will edit a periodical publication in the French language treating questions which concern the Union. The Governments of the countries of the Union reserve to themselves the faculty of authorizing, by common accord, the publication by the office of an addition in one or more other languages if experience should show this to be requisite.

The International Office will always hold itself at the disposal of members of the Union, with the view to furnish them with any special information they may require relative to the protection of literary and artistic works.

The administration of the country where a Conference is about to be held, will prepare the programme of the Conference with the assistance of the International Office.

The Director of the International Office will attend the sittings of the Conferences, and will take part in the discussions without a deliberative voice. He will make an annual report on his administration, which shall be communicated to all the members of the Union.

The expenses of the office of the International Union shall be shared by the contracting States. Unless a fresh arrangement be made, they cannot exceed a sum of sixty thousand francs a year. This sum may be increased by the decision of one of the Conferences provided for in Article XVII.

The share of the total expense to be paid by each country shall be determined by the division of the contracting and acceding States into six classes, each of which shall contribute in the proportion of a certain number of units :—

First class	25 units.
Second class	20 "
Third class	15 "
Fourth class	10 "
Fifth class	5 "
Sixth class	3 "

These co-efficients will be multiplied by the number of States of each class, and the total product thus obtained will give the number of units by which the total expense is to be divided. The quotient will give the amount of the unity of expense. Each State will declare, at the time of its accession, in which of the said classes it desires to be placed.

The Swiss Administration will prepare the Budget of the office, superintend its expenditure, make the necessary advances, and draw up the annual account, which shall be communicated to all the other Administrations.

6. The next Conference shall be held at Paris between four and six years from the date of the coming into force of the Convention.

The French Government will fix the date within these limits after having consulted the International Office.

7. It is agreed that, as regards the exchange of ratifications contemplated in Article XXI, each contracting party shall give a single instrument, which shall be deposited with those of the other States, in the Government Archives of the Swiss Confederation. Each party shall receive in exchange a copy of the procès-verbal of the exchange of ratifications, signed by the Plenipotentiaries present.

The present final Protocol, which shall be ratified with the Convention concluded this day, shall be considered as forming an integral part of the said Convention, and shall have the same force, effect, and duration.
